

About the Project

Exciting improvements are coming to 3rd Street and Broadway! Westbound 3rd Street and Eastbound Broadway will be resurfaced and reconfigured from Golden Avenue to Alamitos Avenue to create a more pedestrian and bike-friendly streetscape. Examples of improvements include relocation of protected bike lanes to right side of the street to allow for better connections to existing and future bicycle facilities, as well as increased safety. The project also includes construction of new bus islands and ADA upgrades to sidewalks and curb ramps.
