BIKE SAFETY TIPS

STAY FOCUSED AND AVOID DISTRACTIONS

Whether you drive a car or ride a bike, it's illegal to talk or text using a hand-held cell phone. Wearing headphones that cover both ears is also prohibited.

BE PREDICTABLE AND USE HAND SIGNALS

Bicyclists should follow the same rules as if they are driving a car, such as looking behind and using signals prior to making turns.

BE VISIBLE DAY AND NIGHT

At night, bicyclists must, by law, turn on a white headlight and use side and rear reflectors. A rear-facing red LED light is recommended.

WALK YOUR BIKE ON THE SIDEWALK IN BUSINESS DISTRICTS

Bicyclists may not ride their bikes on sidewalks in business districts (LB Muni. Code 10.48.070). Bicyclists can ride in the right-hand travel lane of the street, but should stay clear of car doors that may open unexpectedly.

SAME ROAD, SAME RULES, SAME RIGHTS

The CA Vehicle Code grants motorists and bicyclists the same rights and responsibilities on public streets-both are responsible for obeying the rules of the road.

BEWARE OF THE "DOOR ZONE"

Bicyclists should allow at least five feet or more clearance while riding alongside parked cars to avoid the "Door Zone."

RIDE WITH THE FLOW OF TRAFFIC

Bicyclists must travel with the flow of traffic. It's the law, and it helps bicyclists to be visible and predictable to motorists and pedestrians.

RED MEANS STOP AT TRAFFIC SIGNALS AND STOP SIGNS

Motorists and bicyclists must stop at red lights and stop signs and yield at stop signs to those who arrive first.
