BIKE SAFETY TIPS

STAY FOCUSED AND AVOID DISTRACTIONS
Whether you drive a car or ride a bike, it’s illegal to talk on a phone using hand-held cell phones. Wearing headphones that cover both ears is also prohibited.

BE PREDICTABLE AND USE HAND SIGNALS
Bicyclists should follow the same rules as if they are driving a car, such as looking behind and using their turn signals when making turns.

BE VISIBLE DAY AND NIGHT
At night, bicyclists must, by law, turn on a white headlight and use side and rear reflectors. A rear-facing red LED light is recommended.

WEAR YOUR BIKE ON THE ROAD
EXCEPT IN BUSINESS DISTRICTS
Bicyclists may not ride their bikes on sidewalks in business districts. BikeSafe (562) 240-2435.

SAME ROAD, SAME RULES, SAME RIGHTS
The CA Vehicle Code grants motorists and bicyclists the same rights and responsibilities on public streets. Both are responsible for obeying the rules of the road.

Beware of “the door zone”
Bicyclists should allow at least five feet or more clearance while riding alongside parked cars to avoid the “door zone.”

Bicycles must travel with the flow of traffic. It’s the law, and it helps bicyclists to be safe and predictable to motorists and pedestrians.

Red means stop at traffic signals and stop signs
Motorists and bicyclists must stop at red lights and stop signs and yield at stop signs to those who arrive first.
