**What would you like to achieve as a director?**

I have lived in Long Beach since 2014 and purchased my first home in Downtown Long Beach in 2017. I've seen the economic, social, and pedestrian accessibility changes that have occurred over the last few years. As a director, I would like to contribute to the development of a plan to move DTLB forward. From my condo, I still see boarded up stores and restaurants that were shuttered due to the pandemic and BLM protests, in addition to the unhoused individuals claiming public areas. Im also living through the renaissance of DTLB, post pandemic that has implemented innovations to utilize streets for public good such as restaurant dining. Some of these aspects could become long-term additions to our lifestyle and others need to be addressed to make our community more pleasurable and safer. Due to my experience in infrastructure planning and government, I believe, I can help define the future of our community. I have

a vested interest in my home and see myself growing a family here with my wife and our two dogs. We are in our 30's and have many more years DTLB living.
