

Sara Payne, BBB Operations Manager

As the Block by Block Operations Manager, Sara leads the Clean and Safe Ambassadors known throughout the community as “The Red Shirts.” She works with her team to help ensure that our community stays vibrant and welcoming so that everyone can enjoy and indulge in what our community has to offer. Before joining the Block by Block team, Sara spent 10 years managing in the food service and hospitality industry. She uses her hospitality background to help teach her team to be thoughtful and compassionate while providing even the smallest services for anyone that may need them. Sara has always been passionate about serving the community. Even at a young age she was a Girl Scout and spent a lot of her free time volunteering for many different organizations. She took part in everything from beach clean ups to summer day camps for children with special needs and was always ready to learn more. Sara now spends most of her time with her two children and takes pride in being a boy mom. Soccer, Star Wars, and music are some of her favorite things she shares with her sons. She loves her family, her pets, her community, and looks forward to doing the important work every day.
